HOW WILL MK360 HELP YOUR BUSINESS?

In the business of **ENTERTAINMENT AND EVENTS**, the rise of a new media format historically comes with a boost in major brands marketing activities. Immersive media is the next big thing in communication

1

SURPRISE YOUR AUDIENCE

Your message will be heard if it comes with a WOW

2

MAXIMIZE THE IMPACT

Being immersed together and interacting as a group is better than isolation

3

POSITION YOUR BRAND

Creative opportunities are virtually limitless

4

RETURN OF INVESTMENT

Reap the reward

FEATURED USE CASES IN ENTERTAINMENT & EVENTS

CORPORATE MEETINGS, DEMOS & EVENTS

- Present your business in its own unique environment
- Differentiate your brand from your competitors
- Easy to move - fits in the back of a car
- Quick to assemble - no technician required

MARKETING ACTIVATIONS

- Capture your audience with a stunning visual spectacle
- Interactive virtual engagement with your product

DIGITAL ART & EXHIBITIONS

- Immersive art installations made easy with an all-in-one solution
- Unleash your creativity, we provide the tools

KIDS, FAMILIES & PLAYGROUNDS

- Creativity to the next level
- Let the kids have fun and experience your brand in a non-intrusive yet effective manner

GASTRONOMIC EVENTS

- Share multisensory experiences for heightened gastronomic pleasures
- Dining taken to the next level

5G DEMONSTRATIONS

- Unharness the power of 5G. Let people see it for real
- Other technologies hi-impact presentations

Case Study: The Albert Project - Canada

The impact of immersive technologies for the treatment of Alzheimer and dementia in long-term care

Testimonials

“Opportunity wide open for dementia patients. We never had the opportunity like that to offer to them.”

Janet Ochar, Research Assistant

“From day one we could see her interaction with the images on the wall. She saw things and would say, ‘I remember that!’”

Monica Punter, Daughter of trial participants

“We saw a reduction in the use of medication, agitation, and depression.”

Jill Knowlton, Chief Operating Officer at Primacare Living Solutions

“Before the project started, Beverly would have these really rapid highs and lows...she would almost be in a panic. Those highs and lows aren’t there anymore, which is really nice to see.”

Alan Scott, Husband of trial participant
